

# Coloured Toilet Seats

Brightly coloured for contrast

Fits most standard pans

A bright red coloured toilet seat from Bemis, ideally suited to people suffering from dementia. A replacement to the standard seat, this coloured seat helps to provide a colour contrast with the white pan or wall to more easily locate the toilet or wall.

Perfect for people suffering from dementia, impaired vision or other cognitive impairment.

Manufactured from heavy duty moulded plastic, the seat is guaranteed not to crack or split. This durable seat is made with non-corrosive hinge bolts and protected by Duraguard for hygienic plus protection. Seat attaches using traditional bottom fix hinges.
