Roadside Assist

New Zealand

AA help is at hand 365 days of the year

Invacare has joined up with the people at AA Roadservice cover to bring you Peace of mind. With any Invacare mobility scooter purchase, you will receive 24 hour, 365 days per year, roadside assistance, for three years, FREE! So not only can you enjoy all the great features offered by our range of mobility scooters, you can rest assured knowing that if anything goes wrong with your mobility scooter, help is just an 0800 number away.

How do I become eligible for the 3 years FREE offer?

Simple. If you purchase any Invacare mobility scooter, you need to ensure your Invacare approved dealer registers for your warranty online at the time of purchase*. Once your dealer has registered for your warranty, you will be automatically signed up for the program and can call 0800 500 222 any time you need to!

Australia

24/7 Road Service Australia

Invacare offers 1 year free breakdown assistance when you purchase your new scooter. To qualify for roadside assistance customers need to have current and active policies with 24/7 Road Service Australia.

Roadside assistance provides assistance only when:

- Customer has active policy
- Broken down (Mechanical Breakdown ONLY) outside of home

Roadside assistance provides a towing service to bring the scooter home for the customer. We do not offer repairs, we do not do maintenance nor offer assistance of any kind when customer are located in their home.

To be eligible you need to ensure your Invacare approved dealer registers your warranty online at the time of purchase. Once your dealer has registered your warranty, you will be automatically signed up for cover and can call 1300 550 279 any time you need to!

For further information ring 24/7 Road Services Australia on 1300 550 279.

Making Life's Experiences Possible

Colibri

THE COLOURFUL ROUTE TO
EFFORTLESS, SAFE DRIVING

The Invacare Colibri is a stylish, simple and colourful micro lightweight scooter, designed for those who enjoy a totally independent lifestyle. Less than a minute is all that's needed to disassemble the Colibri for transportation.

Colibri

Thanks to the unique patented Invacare LiteLock™ system the scooter can easily be taken apart without the need for tools and fits neatly into any car boot. Plus, with its small footprint the Invacare Colibri offers greater manoeuvrability in tight, or limited spaces.

Additionally, you can choose from a range of trendy colour panels to match your style, swapping them according to your needs.

Choose where to charge your battery: directly on the Colibri or detached from it.

The soft, padded seat provides comfort during driving. For increased comfort there is also the optional 'easy fit' seat suspension kit.

Features

Effortless dismantling can be done in less than a minute for transportation.

A soft padded seat provides additional comfort

Leo

SOLID, SAFE, SECURE

Safety is a key feature of the Leo, but this does not detract from its stylish and sporty looks. Leo offers users the freedom and confidence to enjoy their essential daily outings and leisure excursions. With high standards of design and safety engineering, the Leo undoubtedly sets a new market standard.

Leo

The Invacare Leo offers a smooth, safe drive in a scooter that is easy to control and manoeuvre. The Leo intelligent lighting package includes indicators that automatically switch off and a rear brake light for safe driving. In addition to a visual warning for the battery level display, users are also alerted with an audible warning (beep) when the battery needs recharging.

The Leo is a compact mini-scooter that can be easily dismantled for transportation during longer trips or weekend breaks. With a smooth drive and easy manoeuvrability, getting around tight corners in the local shopping centre, museum or leisure complex becomes refreshingly easy. Access to the battery and electronics for maintenance or servicing is much easier with the Leo as only one part needs to be removed.

Features

Users can easily adjust the tiller to suit their needs.

Rear brake lighting warns other people that the scooter is slowing down, thus preventing collisions.

Swivel functionality and sliding rails ensure optimal seating position.

This unique two-step disengaging lever prevents the scooter from accidentally freewheeling.

Tech Specs

<p>Backrest width 470 mm</p>	<p>Seat depth 410 mm</p>	<p>Floor to seat height 460 - 560 mm</p>	<p>Backrest height 475 mm</p>	<p>Driving unit width 590 mm</p>	<p>Total length 1220 mm</p>	<p>Empty weight 59 kg (exc batteries) 83 kg (inc batteries)</p>	<p>Max user weight 136 kg</p>
<p>Battery capacity 2 x 12V/36Ah</p>	<p>Turning diameter 2620 mm</p>	<p>Max climable obstacle height 60 mm</p>	<p>Ground clearance 70 mm</p>	<p>Max safe slope 10°</p>	<p>Max driving distance 38 km</p>	<p>Max driving speed 8 km/h</p>	<p>Motor capacity 240 W</p>

Pegasus Metro

THE PERFECT MIX OF COMFORT, SAFETY AND RELIABILITY

The ergonomically designed Pegasus METRO has been designed from the ground up to focus on key aspects important to both new and seasoned scooter users. As a result, it is equipped with numerous features to ensure users experience a safe, easy and enjoyable ride.

Pegasus Metro

The suspension system on the compact Pegasus METRO has been designed to navigate a variety of everyday surfaces and terrains, allowing you to relax and enjoy a controlled, sturdy drive in comfort.

In addition to a unique lighting system, the Pegasus METRO is equipped with an electronic speed reduction feature that automatically reduces speed around bends, ensuring safe, comfortable manoeuvres at all times. Furthermore, a two-step disengaging lever prevents the scooter from free-wheeling if it is knocked out of drive mode.

Electronics and the motor are protected from corrosion and water which safeguard the vital workings of the scooter against dirt preventing any unnecessary malfunctions.

Features

Users can easily adjust the tiller with a lever to suit their needs.

Ergonomically designed steering system makes for easier, more responsive control.

Ensures immediate braking if required.

Clear, bright brake lighting warns people that the scooter is slowing down.

Dashboard configuration.

Comet Pro

POWER AND PERFORMANCE IN A PREMIUM PACKAGE

ONLY AVAILABLE
IN NEW ZEALAND

Whether you're popping to the local shops, taking longer trips into town, or looking to go further afield, the new Comet Pro will take you the distance in comfort, safety and style. Its powerful outdoor capabilities, combined with advanced safety features and options, ensures a speedy, powerful and reliable drive.

Comet Pro

Large 13" front and rear wheels, combined with a superior suspension system, allows the safe negotiation of kerbs and obstacles in a smooth and comfortable manner. Additionally, the automatic speed reduction will slow you down when driving around corners at high speed for additional stability and safety.

Advanced safety features, such as a two step disengaging lever and automatic speed reduction, offers additional peace of mind wherever you go.

The Comet Pro offers exceptional manoeuvrability and control, even through tight and challenging spaces. Additionally, the ergonomic steering ensures an optimal driving position, allowing for a more enjoyable and relaxing journey.

Features

Advanced suspension for a smooth and comfortable drive over rugged terrain.

Easy drive direction stability keeps you in a straight line at high speeds for additional safety and stability.

Two step disengaging lever prevents the scooter from accidentally free-wheeling.

Automatic speed reduction reduces speed around bends for added safety.

Making Life's Experiences Possible

Comet Alpine+

CHALLENGE THE OUTDOORS WITH POWER, CONTROL AND STABILITY

For those who enjoy adventures across terrains too challenging for a traditional scooter, the Comet® Alpine+ offers the perfect solution. Its robust and powerful driving characteristics gives you the freedom to discover the great outdoors with minimal effort in continuous comfort and safety.

Comet Alpine+

As part of the Comet family, the Comet Alpine+ comes packed with all of its well-known safety features and customisation capabilities, offering a reliable, powerful and stylish scooter.

- Powerful and robust
- Excellent outdoor capabilities
- Safety at its core

The Comet Alpine+ offers excellent maneuverability and power without compromising safety and style. Thanks to its powerful motors and superior suspension system, the Comet Alpine+ lets you challenge the great outdoors with minimal effort and complete control.

Vital components are protected from water and dirt thanks to the in-built anti splash guards. Directional stability keeps you moving in a straight line and automatic speed reduction to slow you down when driving round corners.

Features

LCD dashboard for clear, easy to read information.

Seat suspension module offers additional comfort by adding an optional seat suspension.

Seat riser electronically increase the seat height to achieve a preferred driving height.

An optional off board charger allows you to conveniently charge the batteries away from the scooter.

Making Life's Experiences Possible

Comet Ultra

**BUILT TO SUPPORT WITH PERFORMANCE
AND RELIABILITY**

Ideal for those with larger body shapes, the Comet® Ultra offers a secure, supportive and powerful driving experience without compromising on style or functionality. The Comet Ultra will get you to your destination quickly and efficiently, in complete comfort and control.

Comet Ultra

The safety and stability of the Comet Ultra is never a concern; even for users weighing up to 220kg. Developed with the highest quality components and safety features, the Comet Ultra makes a trustworthy companion no matter where you go. Furthermore, its flexibility and adaptability means you can customise your scooter to suit your unique style and individual preference.

The special contoured Ultra Seat has been developed in conjunction with therapists to ensure an optimum seating position and increased comfort. In addition, a pneumatically adjustable lumbar support allows for further comfort when seated if and when required. The reinforced seat base and adjustable armrests offer excellent support and allows the use of the armrest as additional support when getting on and off the scooter.

Features

Improved suspension to offer superior comfort to larger individuals.

Reinforced seat column offers additional stability and safety when seated.

Reinforced height and width adjustable armrest.
